Project Name	Measuring the pulse of prosperity:An index of economic freedom analysis

Empathy Map:

This empathy map, created for the project "Measuring the Pulse of Prosperity: An Index of Economic Freedom Analysis," captures the mindset, environment, challenges, and motivations of stakeholders interested in economic freedom and prosperity. It illustrates what they think and feel—recognizing the importance of economic freedom, worrying about prosperity and growth, desiring better policies, and aspiring toward sustainable economic development. It highlights what they hear from economists, policymakers, and media sources, all of which shape their understanding and opinions. It also shows what they see in their environment, such as economic news, country comparisons, and global rankings of economic freedom, reinforcing their awareness of how nations perform relative to one another. The map further reflects what they say and do, including discussing economic policies, debating regulations and reforms, analyzing economic data, and advocating for greater economic freedom. Finally, it outlines their pains—concerns about slow growth, excessive regulations and bureaucracy, lack of transparency, corruption, and inefficiency—alongside their gains, such as a strong desire to understand economic freedom more deeply, seek data-driven insights, measure prosperity accurately, and develop effective policy recommendations. Overall, the empathy map provides a comprehensive view of the stakeholders' perspectives, struggles, and goals, guiding the project to align its analysis and outcomes with their real needs and expectations.It explains the thoughts, feelings, and needs of people who are interested in economic growth and policies. They think economic freedom is important and want better policies for development. They hear opinions from economists, policymakers, and the media. They see economic news, country comparisons, and global rankings. They talk about economic reforms, analyze data, and support good policies..

Example:

Empathy Map
Project: Measuring The Pulse of Prosperity: An Index of Econoic Freédom Analysis
What do THEY THINK AND FEEL?
• importance of economic freedom
• major concerns about prosperity
• desire for better policies
• aspiration for economic growth
What do THEY HEAR?
• what economists & expert say
• what policymakers say
• what media say
What do THEY SEE?
